TRAINING

Full Stack Web Development

Bitbyte Robotronix, Indore

February 2022 - July 2022

As a full-stack web developer, I have a deep understanding of the front-end and back-end components of web applications, as well as the ability to integrate them together to create a complete and functional system. I have experience working with a variety of programming languages, frameworks, and tools, including HTML, CSS, JavaScript, Django.

Python

Bitbyte Robotronix, Indore

July 2022 - September 2022

As a Python developer, I have a deep understanding of the Python programming language, its libraries, frameworks, and tools. I have experience working with various Python web frameworks such as Django to develop robust and scalable web applications.

PROJECTS

Portfolio

March 2022 – April 2022

{Front-end Project}

While practicing for frontend development work on this project. This is my first project which is made by using HTML, CSS, Bootstrap and JavaScript.

E-Commerce Website

May 2022 – July 2022

{Full-stack Project}

This Full-stack based project in which I was using Django for backend work.
